## **Preface:**

I would first like to begin by expressing my extreme disappointment in the Ohio Redistricting Commission. As a young person, I was extremely eager to vote in support of the 2018 Constitutional Amendment that was designed to prevent gerrymandering of U.S. Congressional Districts in one of my first elections. I have paid close attention to the redistricting process as I eagerly awaited the commission to draw fair General Assembly Districts. I truly believed that what I voted for in 2018 (and what my fellow Ohioans voted for in 2015 before I could vote myself) would create a process that would yield maps that accurately represented the state of Ohio. Wow, was I wrong. The majority party members on the commission, save maybe some half-hearted misgivings immediately prior to voting in favor of the horrendous General Assembly maps from Auditor Faber and Secretary LaRose, have expressed no interest in actually working to create maps that comply with the letter AND intent of the redistricting reforms of 2015 and 2018. Watching that process motivated me, motivated me to do something about it. I tried to come up with better maps myself, but, alas, I am but one person with a fulltime job. I didn't have the time or resources to dig into all of the requirements of the General Assembly redistricting process and put together a proposal before the new maps were adopted, but I tried. I have spent evenings and weekends since tweaking my proposal for Ohio's Congressional Districts to ensure I have all of my ducks (pardon the current OH-4 district pun) in a line. The fact that I, by myself, with only a laptop computer and an old mouse, have been able to put together a rough proposal that goes above and beyond the requirements of the Ohio constitution while staying within a 5% population variance AND a fine-tuned proposal that still complies with the all but one requirement of the Ohio Constitution (as noted regarding District 4 in the proposal that can easily be fixed using my suggestions and a little bit more time that I simply do not have) with essentially zero population variance goes to show that the argument made by the majority members of the commission that they have not had enough time to draw maps due to the 2020 U.S. Census delay is preposterous, given the fact that they have infinitely more people and resources to dedicate to this process than one person with a computer and no money. With that, I would ask that the commission simply adopt this proposed map and Venmo (@Andrew-Green-59) me the entirety of the majority party's budget for Congressional Redistricting because that is a better use of the Ohio taxpayers' money than wherever it is currently going.

## Summary:

**Figure 1:** Proposed U.S. Congressional Districts from Ohio following redistricting after the 2020 U.S. Census.

Per Article XIX of the Ohio Constitution, the splitting of counties, townships, and municipalities shall be minimized to the extent possible. Given Ohio's congressional ratio of representation (CRR) of 786,630 and the fact that the city of Columbus has a population of 905,748, the city of Columbus must be split. Article XIX requires that the cities of Cleveland, Cincinnati, Toledo, Akron, and Dayton may not be split. Furthermore, Article XIX requires that 65 of Ohio's 88 counties be contained entirely within one district. Of the remaining 23 counties, no more than 18 may be split once and no more than 5 may be split twice. Given the fact that the populations of Cuyahoga, Franklin, and Hamilton Counties are all greater than the CRR, those three counties must each be split at least once. This finalized proposal meets those constitutional requirements by splitting only fifteen counties (Clermont, Cuyahoga, Franklin, Greene, Hamilton, Lake, Licking, Lorain, Mahoning, Muskingum, Richland, Scioto, Shelby, Stark, and Summit) once each while ensuring each district has a population between one less than the CRR and one more than the CRR, which corresponds to a population variance of  $\pm 0.00013\%$ .

Within the split counties, all efforts were made not to split townships and municipalities. Only five cities (one of which, Columbus, must be split due to its population), three villages, and nine townships are split between two districts in this proposal. As mentioned in the initial proposal, three townships and one village are split only to ensure the contiguity of the proposed districts. The remaining twelve splits are only to ensure equal population in each district.

Although not an explicit requirement, in the spirit of bipartisan compromise and passing a 10-year map with a support from a majority of both major parties, districts were drawn to proportionally favor each of the two major political parties in approximately the same ratios as voters voted for candidates from the corresponding party in the sum of all of the statewide elections in the last 10 years, as is required in the General Assembly redistricting process. Additionally, considering the astonishing lack of competitive congressional elections in Ohio since the 2011 redistricting process, an effort was made to promote competitive districts. A summary of the proposed districts can be found in Table 1 below. Information regarding the splitting of counties and townships/municipalities can be found in Table 2 and Table 3 below, respectively.

**Table 1:** Summary of Proposed Congressional Districts with populations according to the 2020 U.S.

Census, Political Voting Index calculated by DistritBuilder.org using data from the 2016 and 2020 presidential elections, party voting margins in the sum of all statewide partisan elections in 2016, 2018, and 2020 (per DRA), and the percentage of the population made up of racial minorities

Proposed Congressional Districts Summary										
District	Location	Population	CRR Variance	CRR +/- %	PVI	16-20 D %	16-20 R %	16-20 Margin	Minority %	Partisan Lean

Scioto	10 & 13	51,842	22,166
Shelby	11 & 14	15,653	32,577
Stark	4 & 6	259,727	115,126
Summit	2 & 4	13,524	526,904

**Table 3: Summary of split townships and municipalities (including Census Designated Places)**

<b>Split Townships &amp; Municipalities Summary</b>					
Municipality/Township	Type	County	Districts	Population in 1st District	Population in 2nd District
Osnaburg	Township	Stark	4 & 6	2	3,907
Franklin	Township	Franklin	7 & 8	10,816	17
Jefferson	Township	Franklin	7 & 8	13,250	354
Columbus	City	Franklin	7 & 8	299,631	580,698
Hilliard	City	Franklin	7 & 8	36,126	988
Newton	Township	Licking	7 & 9	585	2,257
Granville	Village	Licking	7 & 9	7,018	30
Parma	City	Cuyahoga	1 & 5	53,381	27,765
Perry	Township	Lake	5 & 6	5,282	1,067
Milton	Township	Mahoning	6 & 9	369	2,120
Zanesville	City	Muskingum	9 & 10	24,406	359
Portsmouth	City	Scioto	10 & 13	16,614	1,638
Spring Valley	Township	Greene	12 & 13	340	1,723
New Richmond	Village	Clermont	13 & 15	2,497	230
Addyston	Village	Hamilton	14 & 15	643	284
Skyline Acres	CDP	Hamilton	14 & 15	857	589
Turtle Creek	Township	Shelby	11 & 14	78	1,518
Bath	Township	Summit	2 & 4	7,087	2,937
Montrose-Ghent	CDP	Summit	2 & 4	3,602	1,652
Vermilion	City	Lorain	2 & 3	469	5,508
Shelby	City	Richland	2 & 6	162	9,120

This congressional map proposal was created using a popular online redistricting application, Dave's Redistricting App (DRA). Block files from DRA were imported to

DistrictBuilder.org, another open-source web-based redistricting tool, to verify the maps and for additional analysis. The proposal can be viewed on DRA at <https://davesredistricting.org/join/9dd8a3ba-4c7f-4aab-8dbc-dd5e8bb7dda0> or on DistrictBuilder.org at <https://app.districtbuilder.org/projects/162dfbed-0b10-4e37-8616-8ee192e81369>.

Below is a list of comments regarding some self-identified weaknesses in this proposal:

- Districts 13 and 14 both span from east and west of Cincinnati, respectively, to well north of Dayton. This design, while not necessarily the most compact, keeps communities of interest intact in the Dayton area and provides for a reasonably competitive District 12. I do not see an easy way around this poor compactness issue without having either District 13 or District 14 wrap almost entirely around District 12 and the other wrapping almost entirely around District 15, which is almost certainly a worse design.
- The minority representation in this map is likely not the best. That said, through my (albeit limited) study of the Voting Rights Act, I am convinced that this proposal is compliant with the Voting Rights Act. While there are no majority-minority districts in this proposal, there is one district (District 8) with a minority population of well over 40%. Additionally, there are three other districts (Districts 1, 5, and 15) with minority populations over 30%. Most importantly, the non-minority populations in these districts do tend to vote in line with the minority populations in the districts, so the minority vote is not diluted in those districts.
- District 6 stretches from Ashtabula County to a sliver of the southern portion of Stark County. While this design loses some points for compactness, as a longtime resident of this proposed district, I believe that the suburban communities of eastern and southern Stark County have more in common with the communities, such as Kent, Ravenna, Warren, and Youngstown, at the core of this district than Columbiana County does. In designing District 6, the primary alternative option to including a portion of Stark County in this district was to include Columbiana County, and I do not believe putting Columbiana County in District 6 and the southern and eastern portions of Stark County in District 9 would have served either of those communities well. Additionally, the map, as drawn, makes for a more competitive District 6, which is one of the stated goals of this proposal due to the lack of competitive Congressional races in Ohio over the last decade.
- The only potential significant constitutional issue that I have identified in this proposal pertains to Article XIX, Section 7, B(8), which states that an attempt should be made “to include at least one whole county in each congressional district” unless a district is contained entirely within one county. District 15 contains the vast majority of Hamilton County and a small portion of Clermont County. It would not be possible for District 15 to include the entirety of Hamilton County. It would be

extremely difficult for District 15 to include the entirety of Clermont County and the city of Cincinnati such that all of the other communities of interest in Hamilton County are also included in District 15. In order to include communities of interest on both sides of the county border, I elected not to have District 15 entirely contained within Hamilton County nor to have Clermont County entirely contained within District 15. If this issue is a legitimate constitutional concern, it would not be difficult to include the entirety of Clermont County in District 13 so that District 15 is entirely contained within Hamilton County. In this case, District 14 would have to pick up additional people from District 13 in any of Warren, Champaign, or Logan Counties.

- Additionally, District 4 is not entirely contained within one county, nor does it contain the entirety of any county. In the original proposal, District 4 contained the entirety of Summit County. With a little bit more time, it would not be difficult to return the portion of Summit County that is currently in District 2 to District 4, move a portion of Stark County currently in District 4 into District 6 (likely Tuscarawas Township, Perry Township, Plain Township, or the city of Massillon), move a portion of Mahoning County currently in District 6 into District 9 (likely Milton Township, Jackson Township, Canfield Township, the city of Canfield, Boardman Township, Poland Township, or the village of Poland), and move a portion of Holmes or Knox County into District 2. This would not change the total number of county splits but may increase or potentially decrease the total number of township/municipality splits.

**District 1 (Cleveland and Western Cuyahoga County):**

**Figure 2:** Proposed U.S. Congressional District 1 (green) includes the city of Cleveland and much of western Cuyahoga County.

- County: Cuyahoga (part)
- Major Municipalities: Cleveland, Lakewood, Parma (part), Strongsville
- 2016-2020 Composite Votes: 63.78%/33.89% (Democrat/Republican)—according to DRA
- 2016-2020 Composite PVI: D+14—according to DistrictBuilder.org
- Population: 786,631
- Variance (from CRR): +1 (+0.00%)
- Minority %: 37.14%
