

The proposed map follows rules regarding county and municipality splitting outlined in the constitution and has a population balance of 0.05% (perfect balance can be achieved by splitting precincts at the margins). All districts that span multiple counties contain at least one full county. The map keeps pairs of cities with shared identities together as much as possible (Youngstown/Warren, Akron/Canton).

The Cleveland district is majority-minority with 40% Black representation. The Columbus district has one-third Black and 47% minority representation. The expected outcome is 8.5R - 6.5D using Dave's Redistricting's 2016-2020 Composite.
