Subject: Redistricting

I want fair and unbiased congressional district maps drawn. We need to have representation that represents the people not who can gerrymander the state to be in power. My district is so gerrymandered that half my town is in one district and the other half is in another and snakes north. These were drawn to keep one party in power and were unfairly done.

I would like to see fair districts, Democrats and Republicans not looking at each other as the enemy and work towards the benefit of ohioans.

We have polluted air consistently in NE Ohio and do nothing about it. Quite being selfish and think about future generations.

Registered Voter,
Mikel Tennant
Munroe Falls, Ohio.
