

Easy Testimony Fill-in

Thank you for allowing me to speak to you. My name is Tamie Wilson. I vote in the 12 District in Delaware (city/municipality). I would like to draw your attention to the issue of redistricting and the delay in results.

In my neighborhood, (tell your story)

1. I am seeking election to the US House of Representatives, yet I still do not know who my constituents are. 2. I also have concerns of the lines being drawn to benefit the Republican party only. 3. My current representative is 2 hours away and has never visited my area.

This effectively means

1. I cannot campaign effectively because I don't know who I will be representing. I don't know who to talk to. 2. Representation isn't fair. 3. Lines are unrealistic to serve the public effectively.

Facts, etc.

1.

NO MAP

2.

My rep hasn't been to my area

3.

OH has 11.7 million citizens. Not everyone has conservative views.

The consequence of not fixing this problem include

1. I am not able to meet and serve my constituents as they deserve.
2. Not everyone is represented.
3. The public suffers by not being heard and served.

I ask you to

1. Get it done
2. Make it fair for both parties.
3. Draw the map so the rep represents their area.

Thank you for your time and consideration of my request.
