Subject: Feed back on the Sykes/Sykes September 13 House map

Thank you for being committed to bipartisan work on 10 yr Redistricting map.

In the amended map presented yesterday at Cleveland area testimony (Sykes/Sykes September 13) Ohio House map, my district 16 is changed. Fairview is out and Olmsted Falls is in. Fairview is now in district 13 with communities more urban including Brookpark and the west side neighborhood of Cleveland like Gordon Square. That makes no sense. Fairview should be with 16 (Bay, Westlake, Rocky River North Olmsted). Olmsted Falls should be with the more rural areas to the south and east. District 16 now has Lakewood. Lakewood could be with West side Cleveland.

This makes more sense to me. Not sure why Fairview was moved from 16. I have attended meetings twice recently. about my district maps. My comments are based on those group discussions of communities of interest.
